

## QUOTE SPECIFICATION SHEET

Custom Reference Material

**Product Name**

Custom Pesticide Mix 6798 100 ug/mL in Methanol

**Product Code**

DRE-Q60006798

**Solvent**

Methanol

**Estimated Shelf Life**

385 days

**Storage Temp**

≤ -10 °C

**Quality Level**

ISO 17034 Certified Reference Material

**Packaging Type**

2 mL Ampule, Amber Glass, 5 x 1.2 mL

Compound Name	CAS No.	Concentration (ug/mL)
baythroid (mixture of isomers)	68359-37-5	100
cadusafos	95465-99-9	100
chlorfenapyr	122453-73-0	100
chlorobenzuron	57160-47-1	100
chlorpyrifos-methyl	5598-13-0	100
clothianidin	210880-92-5	100
Demeton O&S	8065-48-3	100
diazinon	333-41-5	100
fenbuconazole	114369-43-6	100
Hexaconazole	79983-71-4	100
isofenphos-methyl	99675-03-3	100
kresoxim methyl	143390-89-0	100
metalaxyl	57837-19-1	100
oxadixyl	77732-09-3	100
paclobutrazol (mixture of stereo isomers)	76738-62-0	100
phoxim	14816-18-3	100
procymidone	32809-16-8	100
pyrimethanil	53112-28-0	100
tau-fluvalinate	102851-06-9	100
triadimefon	43121-43-3	100

<p><b>LGC Group</b>            7290-B Investment Drive            North Charleston, SC 29418            United States            T   +1 843 763 4884            F   +1 866 509 5146            E   dr.ehrenstorfer@lgcgroup.com</p>		<p>Our experienced chemists will manufacture your custom reference material as outlined above. In special cases, compatibility or solubility may necessitate a change in concentration/solvent, or a multi component solution be split into two or more solutions. The shelf life stated herein is an estimate based on available chemical knowledge and will be replaced by a confirmed expiration date provided by in-house stability testing of the final solution(s). We ensure that the gravimetric concentration will be within five percent of the nominal. Your custom-made reference material will be fully described in an accompanying Dr. Ehrenstorfer Certificate of Analysis.</p>
